

February Brings Dual Artists

Meet the Artist Reception 1-3 pm on Feb. 9

"Grampa Moses", they lovingly call him, in the Senior Citizen's Center art classes in Collierville. 78 years old, he was born in Miami, attended Mars Hill College in North Carolina, and graduated from Baylor University in Waco, Texas with one art class in his resume!

After graduating from Southwestern Seminary, Bill spent 27 years with his family in Chile as a missionary. He was on staff at Baptist Memorial Hospital as staff Chaplain for 8 years. Now retired, Bill paints so beautifully because he is a perfectionist with very few bristles in his brush!!

Charles Sandifer

Cnsandifer@msn.com

A native of Louisiana, he received a degree in landscape architecture from Louisiana State University in 1959. Charles has lived in Memphis since 1960 as an owner of Charles N. Sandifer and Associates-Landscape Architects and City Planners. He earned his degree in 1983 at Memphis State University.

Charles teaches art at the McWherter Senior Citizen's Center. The way he began teaching art was unusual. He only came there in the beginning to take an oil painting class and wound up teaching it!!

My painting style has been influenced by impressionists, to give an impression of the moment by focusing more on light and color and less emphasis on detail, drafting and blending tones.
