

November Artist of the Month

Returning Artist

Rick Barnard

Featured Artist of the Month at the Lucius E. and Elsie C. Burch Library in Collierville During the month of November, 17 selections by Rick Barnard will be on exhibit for your enjoyment. We will feature Rick's flower and bird portfolios among other items. "My goal is to create innovative images of the way I feel about the world around me. Amid the rush and stress of everyday life, we sometimes overlook the beauty of this great Earth. I want to photograph it."

Rick has been a landscape and nature photographer for seven years and his photographic prints have been displayed in dozens of exhibits in the mid-South and mid-Atlantic regions of the United States. In April 2013, the Germantown Performing Arts Centre, Germantown, TN, presented an exhibit of his work comprised of 40 prints.

In February 2014, The Beverly and Sam Ross Gallery, Christian Brothers University of Memphis, TN, will present an extensive exhibition of Rick's fine art prints including several of his award-winning landscapes in large format.
